PREPARING YOUR PROJECTIONS

Please provide projections for your business operations for the next two years. The projections should be accompanied with assumptions explaining your thought process in preparing and estimating the revenues and expenses.

The projections should be in a monthly format if your business meets any one of the following:

- 1) Requires an increase in revenues above those historically shown to repay the proposed loan.
- 2) Requires a decrease in expenses below those historically shown to repay the proposed loan.
- 3) Your business experiences seasonal revenue streams due to its nature or location.

Otherwise, quarterly projections are acceptable.

The projections should contain the following structure:

- 1) Revenues broken down by category.
- 2) Cost of Goods Sold broken down by the same categories as revenues.
- 3) Any wages paid to you should be shown as its own expense item and not included in total wages.
- 4) Any expense item that is calculated as a percentage of revenues should be noted.

Below is an example of expenses that should be included. Not all businesses will incur the same expenses, so your list should be indicative of your business. The following is meant to be a guide only and is not inclusive of all expenses you may show. Also, please refrain from including “miscellaneous” and “other” expense categories.
